Volume 52 No.1

JOSEP M. FONT and VENTURA VERDÚ / The lattice of distributive closure operators over an algebra 1

TSUTOMU HOSOI and ISAO MASUDA / A study of intermediate propositional logics on the thrid slice 15

TATSUYA SHIMURA / Kripke completeness of some intermediate predicate logics with the axiom of constant domain and a variant of canonical formulas 23

KATSUMI SASAKI / The simple substitution property of the intermediate propositional logics on finite slices 41

WOLFGANG RAUTENBERG / On reduced matrices 63

NOBU-YUKI SUZUKI / Some results on the Kripke sheaf semantics for super-intuitionistic predicate logics 73

SERGIU RUDEANU / On Łukasiewicz-Moisil algebras of fuzzy sets 95

RICHARD B. WHITE / A consistent theory of attributes in a logic without contraction 113

VLADIMIR L. VASYUKOV / The completeness of the factor semantics for Łukasiewicz's infinite-valued logics 143

Books Received 169

Volume 52 No.2

AUTOMATED THEOREM PROVING
FOR NON-CLASSICAL LOGICS

Guest Editor
Charles G. Morgan

CHARLES G. MORGAN / Introduction

GORDON BEAVERS / Automated theorem proving for Łukasiewicz logics 183

RICARDO CAFERRA, STÉPHANE DEMRI and MICHEL HERMENT / A framework for the transfer of proofs, lemmas and strategies from classical to non classical logics 197

Studia Logica **52**: 615–616, 1993.

IAN P. GENT / Theory matrices (for modal logics) using alphabetical monotonicity 233

YUE J. JIANG / A intensional epistemic logic 259

ARTHUR BUCHSBAUM and TARCISIO PEQUENO / A reasoning method for a paraconsistent logic 281

FRANCIS J. PELLETIER / Identity in modal logic theorem proving 291

ZBIGNIEW STACHNIAK / An essay on resolution logics 309

ANDRÉ VELLINO / The relative complexity of analytic tableaux and SL–resolution 323

Volume 52 No.3

DAVID MAKINSON / Five faces of minimality 339

GREG RESTALL / How to be *really* contraction free 381

ADAM KOLANY / Satisfiability on hypergraphs 393

DIETMAR SCHWEIGERT / Hybrid terms and sentences 405

GIANPIERO CATTANEO, MARIA L. DALLA CHIARA and ROBERTO GIUNTINI / Fuzzy intuitionistic quantum logics 419

JOHN SLANEY / Sentential constants in systems near **R** 443

MICHAEL FREUND / Supracompact inference operations 457

Book Received 483

Volume 52 No.4

BERNHARD LAUTH / Inductive inference in the limit for first– order sentences 491

WOLFGANG BALZER, BERNHARD LAUTH and GERHARD ZOUBEK / A model for science kinematics 519

PAOLO GENTILINI / Syntactical results on the arithmetical completeness of modal logic 549

ROSS T. BRADY / Rules in relevant logic — II: formula representation 565

DEV K. ROY / Recursive versus recursively enumerable binary relations 587

GONZALO E. REYES and MAREK W. ZAWADOWSKI / Formal systems for modal operators on locales 595
